

# Slimline

## Single Hung Replacement Window

The Slimline single hung replacement window has been designed specifically to meet the requirements associated with rental properties, or any application where high level use requires rugged construction and energy efficiency. The top sash is fixed to enhance performance while the bottom sash tilts in for easy cleaning.

Choose the Slimline single hung window when you need a high quality window system at a truly economical price.

### Slimline single hung features include:

- 7/8" Insulating glass with PPG Intercept® warm edge glazing for outstanding thermal efficiency
- ENERGY STAR qualified with optional Low-E/Argon glazing
- Bottom sash has low profile tilt latches for easy cleaning
- Block and tackle balance system never needs adjustment and provides fingertip bottom sash operation
- Top sash is fixed to enhance performance
- Half screen with extruded frame & fiberglass wire
- Ventilation limit latches keep bottom sash partially open
